Employment Placement Services

Finding a job and keeping a job is not always an easy thing to do, especially if someone has a barrier to employment.

An Employment Specialist works with job seekers to:

- Review and evaluate the adequacy of their resume or portfolio
- Assist with revising and updating resumes or portfolios to highlight the individuals qualifications
- Develop adequate interview skills
- Advise as to the best geographic area for securing specific types of jobs

The employment specialist may recommend an assessment at a local business or suggest a job shadowing experience. These options allow the job seeker to spend time at a business learning the functions of a specific job, which helps the job seeker decide if that type of job is a good fit for them.

Individuals are often referred to New Horizons by sponsoring agencies, both from the public and private sectors.
