Maximizing Employment Opportunities

Work Experience **An Opportunity for Employers and Workers**

What Is A Work Experience?

A Work Experience takes place at local businesses, provides an exciting opportunity for the people we serve to explore career areas of interest and gain new employment skills through vocational training. The Work Experience identifies an individual's strengths, skills and potential barriers to employment. This helps New Horizons Evaluators guide individuals down a successful career path that will lead to greater independence.

What New Horizons Provides

- Offering supervised training at no cost to employers
- Liability coverage for the individual and our personnel
- A Job Coach/Skills Trainer who will supervise the individual throughout the assessment
- An evaluator who will coordinate the assessment sites and evaluate each individual's job readiness and need for accommodations on the job
- Excellent opportunity to recruit potential employees and diversify your workforce

What this Provides to the Individuals We Serve

- The opportunity to explore job areas of interest while working in an actual community setting
- Opportunities to develop work skills along with social skills
- An increase in self esteem and self confidence
- Opportunities to find and obtain employment
